Account Manager Recommendations

1. UPGRADE ELIGIBLE: Based on Q1 volume (1,622 orders), Sakura Ramen House qualifies for Premium tier upgrade. Projected savings: \$1,800/quarter at current volume.

2. PEAK HOUR OPTIMIZATION: Consider offering a 'Lunch Rush' promotion (11:30-1:30 PM) to further capitalize on the highest-traffic window. Suggested: 10% off orders over \$25.

3. MENU EXPANSION: Gyoza and Karaage sides show strong attach rates (58%). Recommend adding 2-3 more appetizer options to increase average order value.

4. PREP TIME IMPROVEMENT: Excellent trend from 16.2 to 14.9 min. If maintained below 15 min for Q2, eligible for 'Speed Badge' visibility boost.

5. DELIVERY RADIUS: Current 4-mile radius captures 89% of potential demand. Expanding to 5 miles would add ~40 orders/week from the Marina district.
